We introduced a new trends and innovations on Infectious Diseases and Control which is scheduled during October 07-08, 2020 in Zurich, Switzerland. We have introduced a theme “Identifying the Various Infectious Diseases and the ways to control”. We truly believe in learning a new aspects in a day will change your entire life.

This International two day conference will provide practical evidence based strategies to engage your workforce and reduce the spread of acute healthcare associated infections. Infectious Diseases 2020 is to promote the health awareness which includes plenary speeches, roundtable discussions, symposiums, abstracts, and workshops on Infection Prevention and Control risks, in related to Infectious Diseases. The goal was to bring together a multidisciplinary group to identify important issues relating to Infection Prevention in Switzerland, Europe, United States, and Asia Pacific, Middle East. Specifically the barriers to a wider recognition of the disease, and to develop an orchestrated action plan. Over 500 scientists, clinicians, nurses, patients, government officials, and representatives from pharmaceutical companies will participate to explore the Infectious Diseases and prevention research. This summary provides the recommendations from the conference that will be used to develop an action plan for the Infection Prevention and Control.
